

3 Little Words

Border Instructions

Here's how to combine all of the 3 Little Words designs into one large, inspirational stitchery.

We stitched the entire series together on 32 ct. Lambswool linen. Choose whatever fabric color and count you prefer. Just make sure the thread colors show up and look pleasing on your fabric.

Stitch count for entire project is 95W x 388H

Our thread list follows. We used one skein of all colors, except as indicated by numbers in parentheses. Weeks Dye Works bright leaf, deep sea (2), chestnut (2), grits, guacamole, Madison Rose, oscar (2), verdigris. Classic Colorworks boysenberry.

Use our placement graph for placing the 7 designs in the group project. Just find the outermost stitches on each design, and use those to place the designs in the corresponding boxes. If it's helpful to you, draw a box around each design, maybe in a contrasting color, to identify the "box" for each design. There are 2 vertical spaces between each design. *The designs in this series are NOT all the same size!*

Begin at the top and stitch your way down. Don't worry if you get off a stitch or two. When you reach the bottom, you can easily adjust the checked border to accommodate your stitching.

* We will be offering a FREE 3 Little Words design that you can opt to add to your inspirational stitchery. After our contest is completed to select the winning saying, I'll graph the winning saying and add that to this page.

** We would like to encourage everyone to personalize their design. If you want to pick and choose your favorite 3 Little Words designs, do that! The border is easily adjustable at the bottom. If you want to add the FREE design to your stitchery, that is another option. It is not necessary to stitch the 3 Little Words designs in the order that we did. You can arrange them to your preference.

Have fun with your 3 Little Words inspirational stitchery!

3 Little Words Border Chart

Area marked with "X" is repeated from the bottom of the graph on the left. Do not stitch again.
