

HALLOWEEN RULES

DOUBLE FLIP BORDER INSTRUCTIONS

Here's how to combine our Halloween Rules into one long banner as pictured. We stitched the entire series together on 32 ct. Chestnut linen from Wichelt Imports. Choose whatever fabric and fabric count you prefer. The stitch count for the entire project, including the top and bottom border, is 93 wide x 366 high.

The threads we used are as follows. The numbers following each color are suggested numbers of skeins to complete the series. (If no number appears, you need only one skein.) If you use a different fabric count, your quantity may vary.

Weeks Dye Works bullfrog, carrot, chestnut, concord, grasshopper, King mackerel, moss, ocean, red rocks, whiskey, whitewash (2).
Crescent Colours blackbird (2), colonial copper
Gentle Art Sampler Threads Ohio lemon pie, tomato
DMC 738 (Anchor 361)

When stitching the whole series together, begin by stitching the free Halloween Rules top border provided here. Then you are ready to stitch the individual designs, using the placement graph.

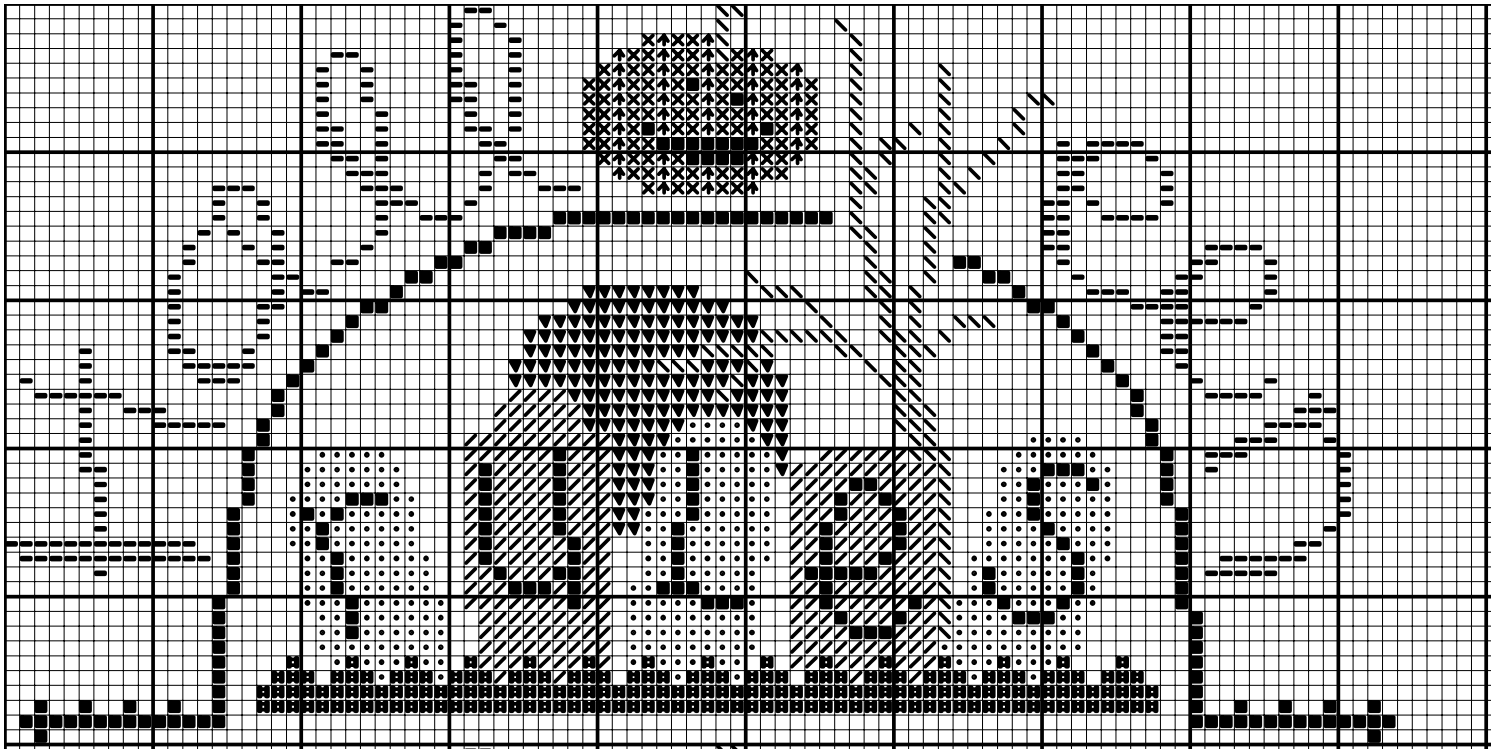

Omit the top and bottom border on each design. To position each design within the boxes provided, identify the boxed area on each design. One design in each Double Flip will already have a heavy outlined box. The other design in each Double Flip will already have a solid stitched border that will form your "box". (This "box" already appears on the placement graph.) Position the boxed area in each design within the boxes provided. Each box is labeled for the corresponding design.

When you have completed the final design (Be Spook-tacular!), add the provided stitched border below the entire series.

If you space your designs a bit differently than ours, no problem! Just add the bottom border when you are finished and enjoy your Halloween Rules!
