

# BUILDING WITH BLOCKS

Here's a handy border to help you "build with blocks"! To combine your monthly Flip-It Block designs, simply stitch them side-by-side, stacked up and down, or combine blocks to form a square...your choice! You choose to combine as many Flip-It Blocks as you want. Do the whole monthly series for a super Flip-It Block Calendar. Choose a season you like and stitch the appropriate months, or combine any other group and number of blocks that you desire. If you can dream it and stitch it, we can wrap it all up with our easy border.

When you combine your Flip-It Block designs, whether you are working horizontally or vertically, simply overlap the white outside border (WDW snowflake or DMC B5200/Anchor 1) already graphed on your Flip-It Blocks. Example, the right border on one design becomes the left border on the next design (when working horizontally). Or the bottom white border on the top design becomes the top border on the next design (when working vertically).

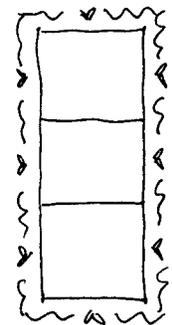

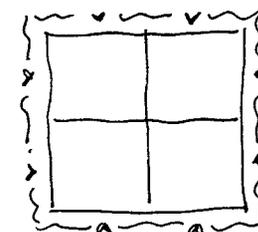

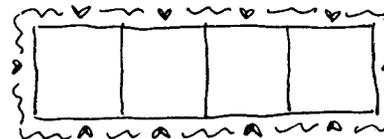

To add our Building with Blocks border, simply follow the graph provided. You can use the colors we have suggested, or choose colors that complement your décor...anything goes! We have designed the border to be easy to repeat. Just make sure the little heart motif lines up with the exact middle of each Flip-It Block (see graph). That way you can make sure you have counted correctly and your border will finish correctly when you reach the last block.

Stitch on 28 or 32 count fabric.

- Weeks Dye Works Teal Frost (DMC 3768/Anchor 779)
- ∨ Weeks Dye Works Bluecoat Red (DMC 3777/Anchor 1015)

Design your own blocks!

Have fun!
